

Ladybird Doubles

Look carefully at these ladybirds. Some of them are special doubles ladybirds – they have the same number of spots on each side of their back. Can you colour all of the doubles ladybirds?

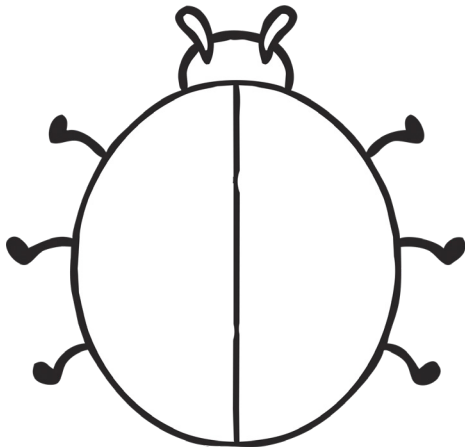

I found a doubles ladybird!
It has 2 spots on each side.
Double 2 is 4.

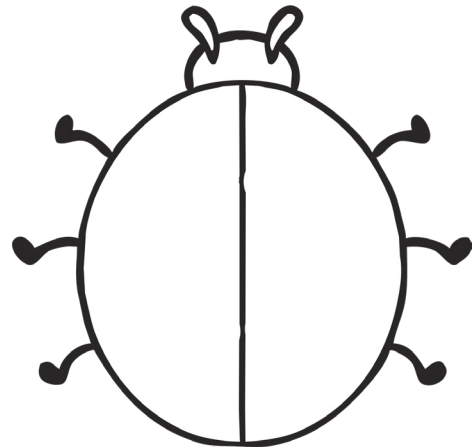

Ladybird Doubles

Now, try drawing your own doubles ladybirds. Draw the same number of spots onto each side of a ladybird and then write the double that you find.
