

Positive Words and Compliments

When someone gives you a compliment and says something nice to you, it makes you feel good.

When you say something kind to someone else, it also makes you feel good!

When you are in class or at home, try to use compliments.

It would be really good to think about what a person does when you give them a compliment.

- Do they smile?
- Do they say thank you?
- Do they say something nice to you?

How do you feel when you give someone a compliment?

- Do you feel happy?
- Did you feel proud?
- Did you enjoy giving the compliment?

My List of Positive Words

Can you make a list of words that could be used to say something nice about someone else, e.g. kind, happy, funny, loyal?

When you have made the list of positive words, think of a way you could make them into compliments, e.g. "You were really kind to me yesterday when I was on my own."
