

# The Hunter and the Hunted

## Amazing Fact

Mosquitoes are by far the most dangerous living thing to humans on the planet. The second most dangerous is other humans.

## Challenge

An animal which hunts and eats other animals is called a predator.

The animal that it eats is the prey.

Draw a line to match up the predator with its prey.

fox

badger

lion

dolphin

snake

owl

sea lion

zebra

rabbit

squid

frog

earthworm

penguin

mouse

You could also try to find out:

- which diseases are carried by mosquitos;
